

To Install Palette PTS on Windows Vista, 7, 8, or 10

When you use Palette PTS on **Windows Vista, 7, 8, or 10**; please follow the procedure below to install the **Driver** and **Software program**.

Step 1: Download the two installation files: setupCRWDriver301PAL.exe and ptsUpTo107.exe.

Step 2: Install the setupCRWDriver301PAL.exe file for your card writer.

Step 3: Install the ptsUpTo107.exe file for the Palette PTS software program.

For further explanation, please refer to the following.

If you use **Windows Vista, 7, 8, or 10**, the Palette PTS program must be installed at version 1.07. If you have already installed the program from the packaged installation CD and the version on this CD is below 1.07; you will need to uninstall the program, reboot your computer, then install the driver and software from the updated setupCRWDriver301PAL.exe and ptsUpTo107.exe files.

Step 1: Download the installation files

The default destination for downloaded files on Windows Vista, 7, 8, and 10 is the user's Downloads folder. If desired, you may be able to save these files to a specific drive and/or folder.

Step 2: Install the Driver for your card writer

1. Double-click on the downloaded "setupCRWDriver301PAL.exe" file. The installation process will automatically start.
2. Follow the instructions and proceed through the update process.

Step 3: Install the Software program

1. Double-click on the downloaded "ptsUpTo107.exe" file. The installation process will automatically start.
2. Follow the instructions and proceed through the update process.
